▪ ABOUT THE GAME:

SAMURAI CHALLENGE is a VR Action Game which tests your sword skills in virtual worlds resembling historical battlefields on which samurai fought. There are ten stages with difficulties ranging from easy to intense. Guard against enemy strikes, dodge cannon fire and slice foes as they charge at you.

▪ KEY FEATURES:

- Ten stages with stunning sceneries ranging from autumn leaves to besieged castles to cherry blossom groves in full bloom
- See in the endgame results how you compare to over a hundred historical samurai

- A choice of three weapons with different playstyles: single sword, dual swords and the double sabre

▪ ABOUT THE DEVELOPER

Xeen is a software company based in Osaka, Japan that develops a wide array of products including console- and arcade games as well as smartphone- and web applications, just to name a few. Since its founding in 2006, Xeen has been tirelessly serving ever-diversifying game markets overseas as well as domestic.
